

Bicycle Specification

All bikes come with a pump, rear rack, lock, and an under-seat pack that contains a spare tube, tire irons, and patch kit. We can provide flat pedals and pedals with cage (with or without) straps: you can choose the type you prefer during the bike fitting. If you wish to use clipless pedals, you can bring your own and we will install them on your rented bike. The bikes come also with a rear rack bag for carrying personal items. The **GPS devices** we supply on tour are: “Wahoo Elemnt Bolt”, “Garmin 800” or “Garmin explorer”.
